

# 1955-1962 1/2 TON CHEVY TRUCK

## Ring Pinions

Back in the 50's most freeway's didn't exist so a 3.90 ratio for those trucks was pretty much the norm. Here's a 3.38 ratio so that you can finally get on the freeway and cruise.

Imported

Part # IECT--3.38      Price \$310.00

## Installation Kit

### Axle Bearings & Seals fit 1946-1962

2 Axle Bearings & Seals  
 Part #ECT-ABS      Price \$156.00

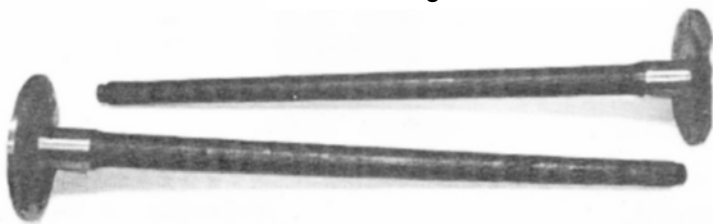

Early Chevy 1/2 Tons are discontinued as far as axles and spiders, so what we did was to upgrade to current spec's (30 spline). The early 1/2 Ton carrier will accept later model 12 bolt open spiders without modification, so we made replacement axles in 30 spline so you can convert over and get readily available spiders at the same time. We've also Eliminated the need for the center block on the cross shaft so you have 1 less piece to mess with.
